CAREER READINESS TOOL

ANNUAL SITE LICENCE

FREE TRIAL ONLINE

KS3 KS4

978 6 00002281 5

£350.00 + VAT

Through a 15 minute online questionnaire, this tool effectively assesses students' readiness to make effective decisions by investigating their strengths and interests and highlighting where they might need help to achieve this. It essentially assesses 5 factors important in decision making - aspirations, barriers, pathways, decision making, and skills needed to secure learning or work. It then produces an individual report for the student and one for the tutor, which helps the school to then identify the levels of careers support students may need.

A comprehensive and easy-to-use web-based careers education and guidance solution for 11-16 year olds. It provides access to more than 500 online applications from over 50 websites and enables young people to interact with multi-media occupational profiles, real world resources, career matching tools, quizzes, games, learning plans, pathfinder tools and portfolios. With more than 100 lesson plans and the ability to produce career profile reports for evaluating individuals and groups. There is also a dedicated section for parents.

400+ Users: 978 6 00001766 8

£150.00 + VAT

This site contains ALL the information you'll find in HEAP but delivered in a new and interactive format, enabling students to: Use predicted UCAS Tariff points to search for courses and filter results. Access HEAP's unique and invaluable advice to help make their application successful. Search by location, courses or university. Save searches online and access them again at any time.

This is an enjoyable, quick and user friendly way of gathering student's views about the quality of your school's careers provision. They are asked a total of thirty questions, each with a number of possible responses. On completion, profile reports can be produced for individual students, groups of students, different year groups and the whole school. Surveying pupil opinions offers schools a unique perspective to inform self-evaluation and to address the issues raised in the Ofsted report, 'Going in the Right Direction'.

Fast Tomato is a fully integrated, web-based careers education and guidance system for years 8 - 13. Career suggestions are based on the results of psychometric questionnaires and are tailored to individual interests, learning/social styles and aspirations. Interactive features allow the student to adjust questionnaire results and educational levels. Fast Tomato links directly to UCAS course information and also includes a complete management system so that student progress can be monitored.

This interactive multimedia careers resource explores over 830 jobs (over 2200 career titles), with over 3,400 pictures, 325 videos, quizzes, shortlists and text. Updated for recent changes to the teaching and assessment of GCSEs and A-levels and with new 'Factsheets' relating to choices at 14+, 16+ and 18+. It provides accessible, easy-to-read essential job data and further in-depth information for entry qualifications, training, work experience and opportunities. Includes First Jed - a simplified version of Jed for younger students and special educational needs. It can be accessed from the Internet or installed from the DVD.

CAREER GUIDANCE CHART: EBOOK

ANNUAL SITE LICENCE ONLINE KS3 KS4

978 6 00002288 4 **£80.00** + VAT

The popular CGC publication is also available online with expanded features. It contains 57 career charts covering subjects from Art to Uniform Services in a single magazine of 114 pages. They have application to both career decisions and HE Options and each chart has supporting 'Outlook' information for each sector and 'what skills will I learn' for each subject. Use in a guidance activity as a power point for group work or at an options event. This product can also be embedded into your VLE. Obtain releases of new charts here first.

Connect your students to 400 UK companies. Who are the big names in utilities? What roles do they offer graduates? Do they have an apprenticeship scheme? This resource highlights key data on names such as British Gas, BBC, Clifford Chance, Kier Group, Mi5, National Grid and many more from Amazon to WWF. With 40 sectors, from Airports and Cyber Security to Telecoms and Utilities, we summarise each company, its services and size with links to their career page. Embed to your school VLE and use in labour market exercises, guidance work or vocational group activities.

3 Year Site Licence
978 6 00 000233 6 **£350.00** + VAT

This is a unique, learning and earning resource for Key Stage 3. Students use role-play as young adults in occupational roles to see how schoolwork relates to career choices and, therefore, to lifestyle and income. They learn how to budget time/money, experience work/life balance, community involvement and lifelong learning. This is an invaluable and innovative way of delivering PSHEE and Citizenship learning outcomes.

Career Investigator, brought to you by Inspiring Futures has been developed particularly for early career exploration, ideal for 12-14 year olds. It is a quick (20 minutes) and efficient way for students to gain an understanding of their interests, strengths and values and what they mean in relation to the world of work and future careers. Sample reports are available.

Primary Schools: 978 6 00002190 0 Up to **£375.00** + VAT

This is an easy to use, independent, online resource which teaches young people personal financial education in a fun and engaging way. It fully meets all UK curriculum requirements. The lessons cover subjects from coin recognition to the benefits system, pensions, wages, budgeting and saving. With full evidence based measurement and tracking progress it is about prevention and building a foundation of personal financial knowledge. It requires no teacher training, no pre-lesson content preparation or post-lesson marking. We will issue a price based on user numbers.

KEY STAGE 2

THE MAKE IT REAL GAME

KS3 KS4

CD-ROM & Town Map:

978 6 00001560 2

£95.00 + VAT

This learning is designed to be fun! Key Stage 2 students assume life/work roles and work together in their roles functioning as working people in their community. They work in small groups and during the process the students will learn personal and interpersonal skills and begin to understand the services and occupations that make up a town and terms such as community, business, career and occupation. They will also learn the importance of education and qualifications in getting jobs and gain an understanding that there are different learning pathways. This engaging resource can also make a great alternative for KS3 as its appeal is that it has an international and global dimension and an excellent work related aspect. The CD-ROM comprises: comprehensive lesson plans; printable worksheets; in-class presentation material; the spin game and links to National Careers Education Framework learning outcomes at KS2 and PSHE. Support materials available.
